

*Scale model of a cathedral façade* (inv. 00194)

Author: Anonymous

Place: France (?)

Period: 1401-1500

Material: Oak

Measurements: 31,5 x 15 x 2,4 cm

Origin: Purchased by Jean van Caloen

Description: This part of a larger scale model shows a façade of a Gothic cathedral. The pointed arch portal has a row of arches with four consoles on each side with four canopies above. The center post is flanked by two doors. In the center of the arch field is a pedestal. Above it a stand consisting of seven pointed arch niches with a recessed rose window above.
